

Garlic Mustard Pull

Aman Park, with Sand Creek flowing through, features more than 200 wooded acres. Broad vistas of trilliums and blue bells are an outstanding treat in springtime. However, garlic mustard is a serious threat to these native wildflowers. Join the Grand Rapids Audubon Club in an attempt to eradicate this weedy invasive alien species before it destroys our beautiful native plants.

Aman Park

Saturday, April 26

9:00 AM to noon

Volunteers are asked to meet in the park prior to 9:00 AM

Sponsored by the **Grand Rapids Audubon Club**

Aman Park, a public park owned by the City of Grand Rapids, is located on Lake Michigan Dr. (M-45) in Ottawa County 3 miles west of Wilson Ave. (Standale). For information on nature trails in the park visit the City of Grand Rapids website (www.grand-rapids.mi.us/) and type AMAN in the search box.
